Performance Option

While the use of a Theramin is optional in this arrangement, adding this iconic and distinctive sound, as heard in the original "Doctor Who" main theme, will add greatly to the overall effect and is quite easy to do.

On an iPad, use the GarageBand app and select the Keyboard sound "Fifties Sci Fi" found in the "Leads" menu. This app is also available for iPhone, however the range is limited and you'll need to use the optional pitches as shown on the Theramin part. (Note: turn volume down when scrolling to change the range)
